##### Excess Use Charge

##### Metered Consumption

Above Excess Use Baseline	\$4.68	\$5.10	\$5.64	\$6.24	\$6.98
---------------------------	--------	--------	--------	--------	--------

##### Metered Consumption All

Irrigation Meters	\$4.68	\$5.10	\$5.64	\$6.24	\$6.98
-------------------	--------	--------	--------	--------	--------

## RATE OUTSIDE CITY:

### Customer Charge

### Double Inside Rate

### Consumption Charge

### 125% Inside Rate

**Winter Quarter Average (WQA)** shall be defined by adding the metered water consumption on bills rendered during the months of January, February and March and then dividing this sum by the number of billings (three). Each customer's WQA shall be recalculated in April of each year. This WQA shall be utilized for the following months of May through April.

**Minimum Winter Quarter Average (MWQA)** shall be defined as 800 cubic feet.

In those instances where no water consumption data exists for the calculation of a WQA for a customer, the Director of Utilities or designated representative shall determine the most appropriate method of establishing the WQA.

**Excess Use Baseline** shall equal the greater of 120% of the WQA or 120% of the MWQA.

**Excess Use Charge** shall apply to: (1) all irrigation meters (2) any use in excess of the excess use baseline.

A customer with metered water consumption greater than three million cubic feet (3,000,000 cf) per year shall be charged at the Tier 1 rate for all consumption. This customer must have a Water Conservation Plan and the plan must be approved by the Director of Utilities.

**Apartment Rate:** When three or more units are placed on a master meter, usage is charged at the first 2,000 cubic feet rate for all consumption.
